Why is safeguarding important?

The main safeguarding issue is abuse. The NHS has released a shocking statistic that health and social care practitioners raised 394,655 concerns of abuse during 2017-18.

National Health Service - NHS

Who is safeguarding training for?

Our Safeguarding - Overview Course is for anyone who works in the health and social care sector and works with service users who require care of some sort. This course will offer your staff quick and effective safeguarding training to help them become aware of certain situations. The training is suitable for private and public sector companies, including community homes (care homes) and other organisations in the healthcare sector.

What does the Safeguarding - Overview Course cover?

The Safeguarding - Overview Course answers the following questions:

- *What is safeguarding?*
- *What legislation and policies protect and safeguard service users?*
- *What is abuse and what are the types of abuse?*
- *What are the signs and symptoms of each type of abuse?*

What is the benefit of safeguarding training to your business?

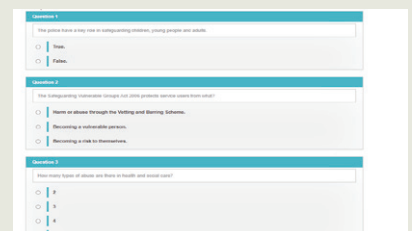

This course will offer your staff quick and effective safeguarding training to help them become aware of the importance of safeguarding within the healthcare and social care sector. at any time to suit your needs.
