## **Has your workforce received sufficient health and safety (level 2) training?**

Last year, 144 UK employees were killed at work. Almost 73,000 others reported non-fatal injuries. The value of health and safety training in the workplace is immeasurable.

Health and Safety Executive - HSE

## **Who is health and safety (level 2) training for?**

This course is designed to show all staff how to adopt the basic principles of health and safety to avoid accidents and illnesses in the workplace.

## **What does the health and safety (level 2) course cover?**

The health and safety course covers:

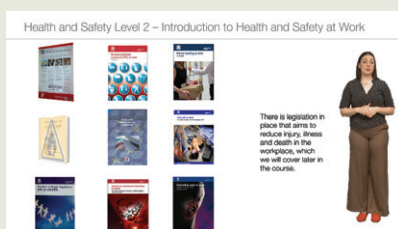

- Key aspects of the Health and Safety at Work Act (1974)
- Risk assessments
- Manual handling
- Display screen equipment
- Fire safety

## **What is the benefit of health and safety training in your business?**

This course will help your workplace to achieve:

- Legislation compliance
- Trained personnel
- Improved performance
- Reduced risk of sickness and injury claims

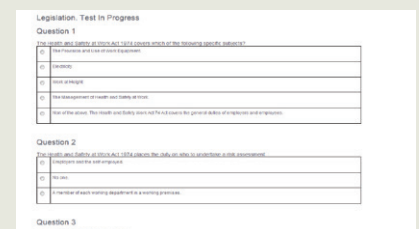

Staff can complete their training at any time to suit your needs.

Video Presentations.

Interactive Games.

Final Exam – Certificates Provided.

**Last year, approximately 4.5 million working days were lost due to non-fatal workplace injuries.**

**The costs to the UK economy runs into millions of pounds annually. Complying with legislation will reduce injuries, illnesses and deaths in the workplace.**
